

# Sustainability & Environmental Concentration Degree Planning Guide

Students must complete a minimum of 42 credits under the BIOL or SUST prefix to earn a degree. Students must complete all core classes (22-27 credits) and six courses from at least **three** of the upper level baskets (3 must be 300 level or higher with a minimum of 18 credits): Students choosing an emphasis shall select **4 courses from one basket and 2 courses from at least two** of the other baskets.

**In order to graduate 128 credit hours must be completed. Last 30 credit hours must be completed in residency.**

*This is an unofficial degree planning sheet. It is subject to change. 2/21*

## SUGGESTED COURSES FOR SUSTAINABILITY CONCENTRATION

Core plus four courses from the Sustainability and Environmental Stewardship basket and two courses from one or more baskets.

ADAH/SCI 377 GIS Course is strongly recommended. This course runs even Fall years

Recommended basket courses: Ecology basket and BIOL 316: Microbiology

A Chemistry minor is strongly recommended but not required.

Hum 211 is required for the concentration.
