

**Blind and Low Vision
Criteria for Documentation**

- 1. All documentation must be typed on official letterhead and include the signature of a qualified professional along with information concerning their credentials.**
- 2. The report must include a current diagnosis (within three years) of visual impairment including acuity, prognosis, and prescription of correction and/or low vision aids.**
- 3. The evaluation must provide objective evidence of a functional limitation.**
- 4. The report must include a summary of the assessment procedures.**
- 5. The report must include a summary of present functioning and if a progressive loss, include a prognosis.**
- 6. Recommendations for accommodations must include a detailed explanation for each accommodation.**
- 7. Extended test time will be defined as time and one half unless other wise documented.**
