SCHOOL OF HEALTH PROFESSIONS

PROGRAMMATIC SUPPORT

Programmatic funds are crucial to the success of the Health Professions initiatives. These programmatic or endowed funds are capable of transforming the very nature of the academic offering, enabling the program to reach a level of excellence that would have been very difficult to achieve with university funds alone. Endowed gifts are invested, using annual distributions to provide a margin of excellence for the academic unit. The gift targets below are suggestions; some may require higher amounts depending on need and profile.

OPPORTUNITY

GIFT LEVEL

	RESERVED
